

FAMILY FUN DAY

Family Fun Day was another resounding success this past August with close to 2,000 visitors attending and over \$3,000 raised to support the museum. For the second year in a row, we had a visit from a Griffon Search & Rescue helicopter from 439 “Tiger” Squadron based out of CFB Bagotville, QC. While the helicopter and firetrucks drew much attention, almost as popular were the hamburgers and hotdogs pumped out by Ken Fincken and his team of volunteers.

Admission to the museum was by donation and in addition to the many exhibits inside the museum, we had bouncies for the kids, several booths dedicated to inspiring youth towards the aerospace sector, Terry’s garage sale, as well as our replica Silver Dart aircraft. This annual event has become our flagship event for the year and continues to expand. Thanks to Jim Killin for organizing it and to the many volunteers who dedicated so much time to make it such a success
